Introduction

ICIRHT(International Conference on Interdisciplinary Research in Humanitarian Technology) welcome participation by individuals and organizations from technical and non-technical backgrounds, including Engineers, Scientists, academics, small business corporations, philanthropist, foundations, and Government and non-governments organizations to participate and discuss latest achievements from all fields of science and technology working on Humanitarian Technology.

The main goal of the conference is to provide a forum for high quality reports on the state-of-the-art theory, and new innovative ideas from science and technology. The initiative provides a focused and highly interactive forum where both researchers and technologists have the opportunity to present and discuss leading research topics, developments and future directions in HT. The importance of conference is its vision to establish scientific contacts between research teams and scientists from different countries for future joint research collaborations. ICIRHT provides the opportunity to discuss topics with colleagues from different spheres such as academic, industry, instrumentation, and computer manufacturing companies, public and private research institutions and organizations. ICIRHT promotes the development of relationships between all regions of globe. The official conference language is English. All materials concerning the ICIRHT-2017 should be written in English.

About Sri Sai Group of Institutes

Sri Sai Group which had a very humble start in the field of higher and technical education in the year 1996 has become a force to reckon with mega campuses in Punjab at Pathankot & Amritsar and Sri Sai University, Palampur, Himachal Pradesh. SSCET, one of the premier technical institutes in north India, aims at building engineers for emerging technologies to cater to the need of the industry globally. It was established in the year 2002 with the pious motive of providing technical education in the most backward Dhar block of Punjab. With the help of innovative methods of teaching the students are shaped up into professional ready to fit in the best of industries in the country and abroad. Highly qualified faculty, well equipped labs and well designed classrooms help make learning a pleasure. We are proud of the students who are already working with companies like Infosys, TCS and Wipro to name a few of the companies visiting our college regularly for placements. Apart from providing routine teaching, SSCET offers a lot of opportunities of for overall development and personality of its students. Personality development programs, Sessions on communication skills and extra co-curricular activities are some of the regular feature in the campus. SSCET offers graduate and post-graduate (B.Tech & M.Tech) courses in CSE, ME, CE, EC, EE and IT.

Conference Tracks :

The theme of the conference is "Science & Technology used for the benefits of humanity" and it includes seven major areas :

1. Agriculture
2. Deployment
3. Disaster Management
4. Education
5. Energy
6. Humanitarian Challenges & Opportunities
7. Information, Communication & Technologies (All Engineering Br.)
